

F325

High Accuracy Web Tension Loadcell Standard Ranges 50, 100, 200 and 500N (5 to 50kgf)

- ◆ Very high precision
- ◆ Overload stop
- ◆ Precision alignment tool facility
- ◆ Standard bearing mounting
- ◆ Mounting foot provision
- ◆ Optional mounting flange
- ◆ Traceable calibration with certificate included in the standard price

This high precision web tension loadcell is designed and built to meet the needs of machine designers, installation fitters and end users by the incorporation of alignment features with maximum flexibility. The high performance of this loadcell is not compromised by the relatively large errors that can be produced by imprecise installation.

We are happy to design variants of this loadcell to meet your specific requirements. Please consult our engineering department.

Details of our other loadcell families can be found in the Product List and the Loadcell Specifier Guide. If you require copies please contact our sales department or look on our web site at www.novatechloadcells.co.uk.

Ordering Codes:	See the loadcell ordering code sheet for more details. Add range in the required units.		
F325CF00H0	Compression, unrationalised
